

LEO LINDER

FOUNDER + CEO

Leo Linder is the Founder and CEO of Emerge, where he is responsible for the overall performance of the business, ongoing value creation, and stewarding the mission, vision, and values of the organization.

Leo's proven methodologies for growing businesses by using technology, AI & ML, Analytics, and Process Innovation have created billions in incremental revenue for clients. His value-based transformations have helped to grow companies like AT&T, Pernod Ricard, American Express, Ogilvy PR, US Department of Defense, Cisco Systems, AWS, and Credit Suisse.

Before founding Emerge, Leo founded and led multiple successful entrepreneurial ventures in software, CRM, analytics & consulting services. He used his extensive industry experience to transform, grow, and run each business better. Throughout his career, he has inspired teams and clients alike with his innovative approach to business strategy and technology integration.

Leo holds a degree in Software Engineering from Devry University and is the Learning Officer for YPO (Young Presidents Organization) New York Empire State Chapter. Additionally, Leo volunteers at the Young Entrepreneurs Academy, where young people learn to be their best and create their own businesses.

Leo lives in Rochester, NY, and enjoys adventure travel with his family and friends. Climbing, Skiing, Cycling, and Paddling are at the top of the list of fun adventures that he enjoys most.
